## WHY USE OUR INDUSTRIAL PRODUCTS

With over 50 years' experience supplying the automotive industry with cleaning products Dreumex has it just about covered.

With 6 different hand cleaners now on the market to cover most skin problems, I am sure there is something for you.

### **DEGREASERS**

Our Eco Clean degreaser, has the Eu Ecolabel to prove its friendliness. Don't underestimate the power of its cleaning though, it is a very powerful cleaner that can be used for degreasing engines to clean floors, it is 100% biodegradable, which can be very helpful with today's tough environmental laws. Not caustic, so no powdering to aluminum surfaces after wash off. Very suitable for use in HACCP-plans.

Recommended dosage 1:10 - 60.

### **INDUSTRIAL**

Dreumex Truck Cleaner has been specially developed for cleaning trucks. It is a strong detergent that soaks off and removes road dirt from trucks, trailers, semi-trailers and delivery vans. The product contains ingredients that prevent corrosion. Dreumex Truck Cleaner can be applied with a high-pressure hose (at low pressure) and rinsed off a few minutes later with clean water. For best results, clean from bottom to top.

Recommended dosage 1: 50-100

The Dreumex Car Shampoo has a shine enhancing effect ensures a gleaming result without streaks. Silicone free and does not affect paint, wax or rubber. Very economical when you realise the concentrate.

Recommended dosage 1: 1:300-500

Soft soaps with no scrubbers for the ones in the office with cleaner hands, available in a 5 litre pump pack to top up the small existing soap packs or the all new Omni range with foam pressured spray cartridges and dispensers.
