

EX4000

Dispensing system

EX4000 Dispenser

The EX4000 dispenser has been designed by experts and specially manufactured for Dreumex in order to serve the needs of general and heavy industry. This new dispenser holds 2 hand cleansers, which remove from medium to extreme industrial soilings.

The EX4000 contains a 4 litre cartridge which, when used correctly, will give approximately 800 hand washes per cartridge. It is a very robust dispenser that offers a long service life. The unique feature of this system is that the strong pump is not fixed in the dispenser, but in the cartridge. This means that a new pump is used with every new cartridge, ensuring not only perfect operation, but also optimal hygiene.

Reasons to use		
Features	Advantages	Benefits
Innovative		
• Pump in cartridge	• No clogging of pump	• No cleaning of pump necessary
• Dispenser & hand cleanser especially designed for each other	• Optimal dispensing characteristics	• Optimized usage of dispenser and hand cleanser
• Modern design	• Aesthetically pleasing	• An asset for every washroom
• Bottom of cartridge is funnel shaped	• All product passes to bottom of cartridge	• No waste of product
Economical		
• Powerful pump	• Ensures full usage of product	• No residual product left in cartridge

Instructions for use

Special EX

Rub some product into the hands. Then slightly wet the hands and rub well, with extra focus on the nails. Once the soiling is completely loosened, rinse and dry properly. Keep the packaging tightly closed and store in a cool place.

Plus EX

Apply some product to dry hands and rub in. Add a little bit of water and rub in. Add a little bit of water and rub again, cleaning thoroughly under the nails. Once the grime is completely dissolved, rinse and wipe dry. Keep package well closed and stored under cool conditions.
